- Walker covers the entirety of naked-eye physics by exploring problems of the everyday world
- The book contains answers to over 600 stimulating questions
- He focuses on the flight of Frisbees, sounds of thunder, rainbows, sand dunes, soap bubbles, etc., and uses such familiar objects as rubber bands, eggs, tea pots, and Coke bottles
- Many references to outside sources guide the way through the problems
- Inclusion of answers provides immediate feedback, making this an extraordinary approach in applying physics to problems of the real world
